

Factsheet

November 10, 2021

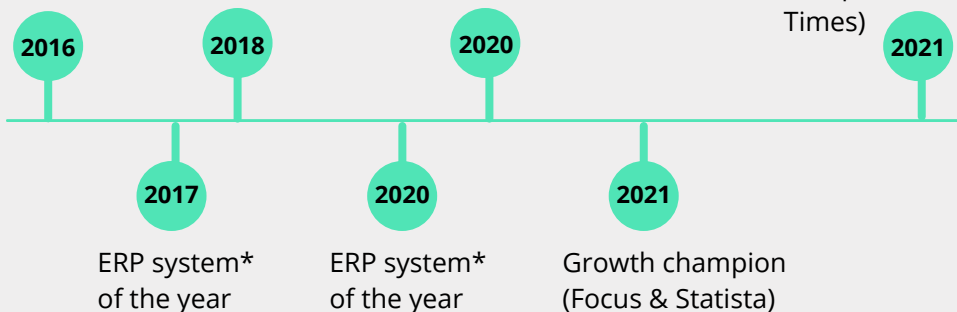

weclapp SE, a subsidiary of 3U HOLDING AG

About weclapp

weclapp is a cloud-based ERP platform for many industries to map and optimise business processes across companies and to simplify everyday work. All data and processes can be accessed and edited from any location - all that is needed is an internet connection and a browser-enabled device. The range of functionalities of the business software can be expanded as desired through a multitude of API interfaces and is scalable to an almost unlimited extent in terms of capacity.

Milestones

ERP system* of the year ERP system* of the year 7,3 Mio. € revenue (57,7 % vs. 2019) Top 500 of "Europe's Fastest Growing Companies" (Financial Times)
2,6 Mio. € EBITDA (108,9 % vs. 2019)

*Center for Enterprise Research of Potsdam University

Market position

With an average growth of almost 100 % (CAGR since market entrance), weclapp claims to be price and technology leader on the way to ERP 4.0. weclapp SE now wants to become the market leader for SMEs.
